Hi {{subscriber first_name}},

I learned this million-dollar lesson the hard way during my trading journey.

And I believe you should know that too.

But before you read further, **I want a promise from you** {{subscriber first_name}},

Promise that.....

You'll continue reading this email only if:

⚡ You're envisioning a life of **unshakable financial freedom** and significant wealth.

⚡ You're emotionally ready to implement a proven & **well-thought-out trading plan**.

⚡ You're ready to **make a living out of forex** trading but need legit guidance.

⚡ You see forex trading as an **opportunity for wealth creation**, not as a gamble or a dubious scheme.

And most importantly.....

⚡ You don't want to make any wild guesses and blow your cash (like I did).

And not to forget,

The million-dollar lesson that I learned from my entire experience is.....

Making a fortune CAN NEVER BE A GUT FEELING OR GUESSWORK. NEVER.

It is hardcore decision-making.

FOREX WAS ONE OF THE BEST DECISIONS OF MY LIFE.

With a leap of faith, numerous wins and losses, and countless experiments,

I mastered trading 📈

This wasn't a quick win!

During the journey,

One of the biggest challenges I (and all beginners) faced is....

Feeling Lost In The Sea of Charts & Numbers 🤯

Every number & graph looked confusing and sketchy (at least to me).

But it doesn't have to be like that for you....

Success in trading comes with Pro Technical Analysis and Decision Making.

And you can master it by:

- ✅ Understanding foundational concepts.
- ✅ Using common indicators like Moving Averages or RSI.
- ✅ Planning your trades and defining your entry, stop-loss, and take-profit levels.

While these are only (some) ways to **simplify technical analysis & decision-making in trading.**

There Is A Huge Ocean To Cover To Build Goldmines Out Of Trading 💰

And the great news?

You don't have to figure it out all alone 📁

You can save your time and money from trial and error 🏠

For now, I want to over-deliver but not overwhelm you.

You can **Schedule Your FREE 1:1 Forex Domination Strategy Call** with me to fast-track your trading goals.

Stay tuned for my next email, where I'll share the next step to start your trading journey, even if you're a beginner.

To Your Success,
Darren Christensen

Hi {{first_name}},

You will never hear this from me again, {{subscriber.first_name}}.

The ONLY way to become a guaranteed six-figure trader is simply by **NOT OVERDOING THINGS.**

It means staying right at the edge of activities that **actually yield results.**

Activities that help you MAKE BIG MONEY.

You cannot overdo tasks all the time (especially in the long term).

Like,

 Spending hours monitoring charts,

 Executing excessive trades, and

 Taking on excessive risks or guesswork.

And, this cycle continues forever 🤖

Why do I say that?

Because I've been trading for around 10 years.

Mentored hundreds of traders.

I made this mistake. My students made this mistake.

There's a clear pattern of why these traders aren't succeeding.

Only around 1% of their efforts are spent executing trades.

{{subscriber.first_name}}, **what you actually need to do is.....**

Embrace the idea of doing nothing 🧘

Instead of spending most of your time **IN** the market.

Stay OUT of the market.

Once you understand this,

You take your **first step toward becoming the TOP 1% trader.**

Not just another trader who spends hours chasing success.

And this is why I've created something for you...

THE BEST & FASTEST METHOD to understand the **Forex Success Roadmap.**

{{subscriber.first_name}}, I introduce you to my program [100 Days To \\$100k Funded Account.](#)

You don't need to go through multiple losses like I did.

Your journey can be so much smoother and you can make money faster than I did.

It's not your fault if you're not making money.

Here's why...

6 years ago, I started making a full-time living through trading.

*From living in government housing, completely broke...
...to owning my dream house on an Australian beach.*

*From sleepless, stressful nights ...
... to making high six-figure incomes every year.*

Learning the art of trading completely turned the tables in my life.

Trading is my bread and butter now, {{subscriber.first_name}}

During this time, I also...

👉 Helped hundreds of mentees and traders collectively make \$1Mn+ from forex alone.

👉 Published a book on beginner-friendly methods of making money through trading.

But to be honest with you...

That is only 10% of my journey.

To achieve this level of consistency in income 💰

🤖 I have **practiced dozens of strategies**, and blown up multiple trading accounts.

🤖 **Tried my 'luck'** with day trading, and swing trading, and experimented with all sorts of time-frames.

But nothing f****g worked 10 years back. I was frustrated. I was broke.

Every trader and broker kept me jumping from one strategy to another.

👉 This is why we created the [100 Days To \\$100k Funded Account](#) program.

Preview: My students collectively make \$1Mn+ from forex alone.

Hi {{first_name}},

I've become a seven-figure trader.

This is not true for now (at least for now)

But I do get the same feeling every day.

 How?

By seeing my students collectively make \$1Mn+ from forex alone. 

And hitting new milestones every week inside the [100 Days To \\$100k Funded Account](#) program.

Steve took home a \$5000 profit through trading.

But his journey was not an easy one.

He had a mortgage on their house and was expecting a baby at the same time.

He hadn't had a pay raise for a long time, and his company was preparing for massive layoffs.

Steve knew he couldn't count only on his job for money.

The reason I admire him a lot is that despite all the circumstances and situations, he made it happen!

Mastering trading might not look easy.

But to add one more thing, it sure can be simple.

Steve didn't go on Google and YouTube to figure out what to do, how to do it, and when to do it. 🧑

He did not have to spend a lot of time trying and testing all the methods.

He followed everything inside the [100 Days To \\$100k Funded Account](#) program.

He added his trust, commitment, and dedication...and BOOOOM - He mastered trading in months. 🌟

Here's what Steve says,

When you say you provide detailed analysis you are not kidding! Been very impressed and looking forward to upgrading my membership in March. Your risk advice is also very much appreciated. Greetings from the UK.

There're many, many more students doing this...

 Here's what Justin says:

"I wish I'd found you sooner, mate, because your program paid me back immediately. I don't sit on the charts for hours at a time."

None of these people are different from you `{{subscriber.first_name}}`.

Their stories are a reminder of the potential that lies within you.

All you need is the right guidance and tools.

The reality is:

- You can make a living out of trading.
- You don't need to be at your trading desk for more than an hour a day.
- You can start trading forex with a small amount of capital, as little as \$250.

And if you feel that we can come together, discuss, and plan to start your trading journey, even if you're a beginner.

You can take your first step right here
